PROJECTS

HOSTEL MANAGEMENT SYSTEM:

The Hostel Management System streamlines operations with two roles: **Users** register, log in, lodge complaints, and access services, while **Admins** efficiently manage user data, customize services, and oversee maintenance, ensuring a seamless and clean experience for all

Admin Dashboard for Eggbucket:

Developed an admin panel with features like customer and outlet management, order tracking, and delivery monitoring. Added interactive data visualizations for revenue and analytics. Designed a responsive, role-based navigation system for seamless user experience.

Experience

Full Stack Web Developer Intern

Eggbucket - [20/1/2025] to [20/2/2025]

Developed and maintained responsive web applications using [MERN STACK]. Implemented front-end features and optimized back-end services. Contributed to database design and API development for seamless functionality.

TECHNICALS SKILLS
